The United States Mint American Women Quarters - 2022

New in 2022 - the American Women Quarters Program will run for four-years and celebrate accomplishments and contributions made by women to the development and history of our country. The coins will feature contributions from a variety of fields such as suffrage, civil rights, abolition, government, humanities, science, space, and the arts.

Beginning in 2022, and continuing through 2025, the U.S. Mint will issue up to five new reverse designs each year. The obverse of each coin will maintain a likeness of George Washington, but is different from the design used in other quarter programs.
